Summary

Creative and analytical **UI/UX & Product Designer** with **3+ years** of experience designing impactful solutions across **B2B** and **B2C** digital platforms. skilled in transforming complex requirements into intuitive, user-focused interfaces using **Human-Centered Design (HCD)**, design systems, and agile workflows. strong foundation in design thinking, user research, wireframing, and prototyping. proven ability to collaborate with cross-functional teams to deliver business-critical features that enhance usability, accessibility, and customer satisfaction.

Work experience

- **Advisory Board Member - Sondar.Ai, Melbourne**

May 2025 - Present

- With the **Core team** to shape the **product roadmap**, aligning design strategies with current ux standards and industry trends.
 - Reviewed and advised on user interface and experience enhancements to improve usability, inclusivity, and performance.
 - Contributed to **innovation** and team growth through **design mentoring** and collaborative **problem-solving** across the development cycle.
- **UI/UX (Product) Designer - EnthuZiastic, USA - (Remote)**

November 2022 - Present

- Sole designer** responsible for end-to-end design solutions for EnthuZiastic’s **Website, Mobile App, Desktop App**, and admin platform.
 - Collaborated directly with the **CEO, Engineering, Marketing, Sales, and Educator teams** to align design with business and user goals.
 - Led redesigns of key product features like **Membership ui, Home Page** of web, mobile, desktop ensuring a seamless user experience across platforms.
 - Created and implemented new features, driving product growth and enhancing user engagement.
 - Developed and maintained design systems, ensuring consistency across all platforms and a smooth handover to engineering teams.
 - Managed design-related tasks using Zoho Projects, fostering effective collaboration with cross-functional teams in an agile environment.
- **UI/UX Designer - Jubera Technologies, India.**

October 2021 - November 2022

- Collaborated closely with the **CEO and Engineering team** to deliver end-to-end design solutions for mobile and web applications.
 - Co-Led the ui/ux design for **MyCare app And MyGarage app**, contributing from initial user flows and wireframes to high-fidelity designs and developer handoff.
 - Worked as one of two designers in a highly collaborative setup, ensuring pixel-perfect execution and design consistency across both projects.
 - Participated in agile sprints, aligned ux strategies with technical feasibility.
 - Played a key role in creating reusable components and screens to support scalable and **User-Friendly Product** experiences.

Achievement

- **Lead design strategist award from Enthuziastic**

- Recognized with the **Lead design strategist** award for demonstrating outstanding leadership in end-to-end product design, cross-functional collaboration, and driving innovative user-centric solutions that significantly **improved business outcomes**.

Skills

- Human-centered design (HCD):** expert in applying design thinking methodologies to optimize usability, accessibility, and inclusive user experiences across digital products.
- UX strategy & User flows:** proficient in defining user journeys, creating personas, and aligning ux strategy with business and user goals.
- Wireframing & Visual design:** skilled in producing low- and high-fidelity wireframes, mockups, and ui layouts that support intuitive navigation and interaction.
- Design systems management:** experienced in building and maintaining scalable, reusable design systems to ensure visual consistency and improve efficiency in cross-platform development.
- Interactive prototyping & Usability testing:** adept at developing interactive prototypes using tools like figma and conducting user testing to drive data-informed design iterations.
- Agile collaboration & Cross-functional communication:** strong background working within agile frameworks, partnering with engineering, product, sales, and marketing teams to execute seamless design handoffs and meet business objectives.

Tools & Technologies

- Figma** – Designed and delivered over **100+ wireframes and high-fidelity** interactive prototypes for web and mobile applications.
- Balsamiq** – Used for creating wireframes and low-fidelity prototypes to map user flows and design interactions.
- Canva** – Designed visual assets like posters, flyers, brochures, presentation and website designed.
- HTML & CSS** – Applied a solid understanding of front-end development to collaborate effectively with development teams.
- Webflow** – Gained basic experience in using webflow for creating responsive web designs.
- InShot** – Used for mobile video editing and content creation.
- Zoho** – Familiar with using zoho applications for management, communication, and collaboration.

Education

- **Master of Computer Applications - Marwadi university - Rajkot**
- **Bachelor Of Computer Applications - Sardar patel kelvani mandal - Jetpur**

Creative & Artistic Expertise

- Award-Winning Artist** with a strong foundation in painting, drawing, and sketching competitions during school and university.
- Led the **visual direction and decoration** for major college events including freshers and farewell parties.
- Passion for art directly influenced a career in **UI/UX And Product Design**, integrating arts with digital creativity.
